THE REAL LOVE - Bob Seger (F)

```
CAPO 1ST FRET
CHORDS: F Bb(add2) A B Bsus4 C#m F#m
INTRO: F Bb(add2) X2
                      F
                                            Bb(add2)
I think I've found the real love...genuine and true
                                                                F Bb(add2)
                                                          Bb
I think it's really come my way today, babe, think it's really you.
                                      Bb(add2)
I remember moments...looking in your eyes
                                                           Bb(add2)
Could have sworn I saw the spark of love, babe, flickering inside
                                         C#m
CHORUS: I've been around and round this track
                            Bb(add2) F#m
                                                    Bsus4 - B
                   F
         And the only thing I lack...is the real love
                                    Bb(add2)
Every time I see you...every time we touch
                                                        Bb(add2)
I can feel the way you feel for me, babe, and it means so much
CHORUS: And every time you look at me
                                                          Bsus4 - B
         It's just the way it all should be...in the real love
        Bb(add2)
BRIDGE: Oh darlin' darlin' darlin'
        B Gm
          Stay with me, stay
        Bb(add2)
          I long to see you in the morning sun
                 B Gm F
          Every day.....every day
BREAK: F Bb(add2) X2
                                       Bb(add2)
So until that moment...when I take your hand
                                                             Bb(add2)
I'm gonna try to do my very best, babe, to prove that I'm your man
OUTRO: I'm gonna do my very best
                                                         Bsus4 - B
                       Bb(add2)
        I'm not gonna rest...until we've got the real love
                     Bb(add2)
        Real love
                                      Bb(add2)
        Until we've got the real love
                                          (played 8 times, fade out on the 9<sup>th</sup>)
```
