CHORDS: Dm= xxo231 G= 320003

INTRO: Dm G Dm G

Dm
On a boat..on a beach..in the water..in the sand
G
In the back of a bar, cold beer in your hand

Dm
Breaking hearts..breaking necks..when we rolling down the streets
G
Heads turning all day, when they see you with me

Dm **G**
I'm thinking everybody better stand in line
Dm **G**
'Cause they need to know that your body is coming with me tonight

Dm
CHORUS: They're like hey who that there with the shades
G
Like, oh, the way you move to the bass
Dm
Hold up..whole room gets to spinning
G
From the second that you walked in here, baby
Dm
You look good..all day all night
G
You look good..so fresh, so fine
Dm
You look good..got everybody watching you
G
Like cameras in Hollywood
Dm G
Baby you look good
Dm G
Baby you look good

Dm
Black dress..to the nines..spent New Years in a pent
G
From the floor to the roof..make the skyline spin

Dm
Yeah you killing me, boy, in your black faded jeans
G
Thank god I work hard when you're smiling at me

CHORUS: They're like hey who that there with the shades
Like, oh, the way you move to the bass
Hold up..whole room gets to spinning
From the second that you walked in here, baby
You look good..all day all night
You look good..so fresh, so fine
You look good..got everybody watching you
Like cameras in Hollywood
Baby you look good
Baby you look good
